

## **Health Sciences: Exercise Science FAQs**

### **Does my student need any previous experience before taking this class?**

We like the students to have biology and chemistry when they apply.

### **If my student attends this course, should they go to college or straight to the workforce?**

Most health science programs require some postsecondary education. Some choose to apply for a position during their internship to help them gain more experience

### **How much homework can a student expect from this course?**

First year students can expect to have homework in Anatomy & Physiology, medical terms and health science. Most homework is spread out over extended periods, such as projects, presentations, etc.

### **What expenses will I incur? Fees, book rental or purchase, tool costs, etc?**

Students buy the medical terms class book, scrubs, and pay for HOSA dues.

### **Can I get in the second year if I did not take the first year of the HSE program?**

If you have had Anatomy & Physiology at your sending school and there is room in the second year class then you can.

### **Are there college credits offered?**

Yes. First year students can earn 4 college credits and second year students can earn 6 college credits through USI.

### **How do you pick your students?**

We use a rubric that addresses attendance, discipline, and GPA. We also look at volunteer experience, teacher contact, and we may call a student if we have questions.
