

Advance Manufacturing Technology FAQs

Does my student need any previous experience before taking this class?

There aren't any prerequisites for this class.

If my student attends this course, should they go to college or straight to the workforce?

Students should attend a 2 year or 4 year university or apprenticeship program before entering the workforce.

How much homework can a student expect from this course?

There will be some homework, but there is usually ample time during class to complete it. The majority of the course work will be hands on.

What expenses will I incur? Fees, book rental or purchase, tool costs, etc?

Students will have to rent a textbook and buy safety glasses. Most other tools are supplied.

What kind of salary can a person make with the skills a student learns in this class?

A person can enter this job market with a starting wage of \$26- \$28 per hour. Top wages range from \$34 - \$40 per hour.

What is the job outlook for a student completing your program?

Right now there is a huge demand for skilled maintenance workers both locally and nationally. Companies like Toyota, Berry, Hershey's, and ThyssenKrupp are some of companies that are actively searching for maintenance workers.
